(54) DEVICE AND METHOD FOR DISTRIBUTING DATA

(57)Abstract:

PROBLEM TO BE SOLVED: To solve the problem that data which are not conforming to a format cannot be watched from an information terminal dealing with only a certain specified image data format, and that only small picture data can be watched when a display screen is small.

SOLUTION: In the case of image data to which cannot be handled by an information terminal 130, when there is a request for image data distribution from the information terminal 130, the image data are transmitted to the information terminal 130 after the image data format is converted by a data distributor 100. Besides, an image operating button is added to the data distributor 100 and enlarged image data are transmitted corresponding to the button.
